

23.4 Mucor

20.4 V. fomicaria ✓

Cephalosporium brownish, slender, no spherulysts - few

4-spored, no fecal paraphyses. at crown.

Ascothorax "alboid"  28-30 x 16 bicarinate
st. offset sp. "days-old" sp. 12.5×6.5 Leptomers ✓

perianth cylindrical 4-5 no crown

Asci clavate 210 x 48 unseptate, hyaline sp.

Some cracks + paler parts of exospore

- "deglutiny" sticklers ✓

Pitheciopsis spores pale yellow orange, ellipsoid

6-7-9 x 3-3.5-4.5 crystalline ✓

Ascothorax yellowish brown with apothecia

400 diam. sp. v. small  11-13 x 6.5

crenulatus/minutus ✓

Same A. crenulatus? possible

seen, but not here. This specimen was older

possibly discarded

19.5 Cep. stercoraria ✓

Ascothorax green, robust

160 x 16 sp  16 x 9 apothecia surf.

Perianth green, capitate in same, with extracellular pigment as well.

Sad aria

sp ellipse

17-18 x 9-10

Linicola ✓

Sch. telespina ✓

4 sp. good scales

19-22 x 12

26-5 Cap. stercoraria ✓

OTO

Ascolabus crenulatus ✓

Sch. stercoraria

8 sp. good scales

sp 19.5-26 x 12.5-14.5

sp ± 1 scale

Sch. telespina ✓

conium ✓
