

Sheep, Biscay RW.

18.8.96

CROWN HOTELS

0/10

4/90

27/8

strongly pentecost. spherical

Conference Pad

Sordaria

broad celled

g.p. in papilla

Asci 22.5 x 20
(90°)

24-22.5 x 16

very thin sheath

~~humid~~

30/8

Large yellow

Ascidobolus

conjug

Spor

lined

19.5-22.5 x 9.5 x 10.5

2.5 mm diam
still expands

but occasionally lines broken, so more
reticulate

yellow

inter

paraphysal

mass

Asci

210 x 26

Strongly purple in KI
(+ paraphys)

Major discolored spores 31.8

Spor

18 x
21

9.5-10.5

Asci 250 long

Probably etc for small spores

Ascidobolus

keys at around

metastasis?

but not visible!

Ascidobolus

9.9. Gave pot it white at Biscay Ferry

18-19.5 x 10-10.5

7+ lines visible

Large piece

Dried overgrown with

white mycelium 9.9.

12.4

Sordana - brood humana? ✓

19.3 * 22.5 x 14.5 - 16

no sheath

Brown hairy Sclerotia development,

Wt also insects, so ~~24.9~~ 12.9' planted in garden
