

11.6. Vinotricha funicola ✓ on collection

12.6 Thelobolus stercorarius ✓ Imm. Laszlohus  
Asc ca. 13 x 16  
Spore ellipsoid 16 x 9  
P. lobatus crystallinus ✓  
9.5-11 x 5 pale ellipsoid setae < 340

14.6 Cap. leptomeris } immature T. stercorarius ✓

Thelobolus crystallinus ✓

16.6 P. lobatus smaller Spore 6-6.5 x 3 Immature  
ellipsoid, v. pale Umbonatus (?)

Cap. 4-spored Setae + Sphaerocysts - hyaline  
7.5-8.5 x 3 ellipsoid apicdg.p Cap setae pointed  
white base same family white/pale < 70, hyaline.  
Immature Finera < 140 on stem -  
not capitate, but 'claggy'

Ascozomus Asc: 9.6 x 2.6 spores fusoid 12-13 x 3.5-4  
64? woolypress ✓ marginal hairs  
Spores 6.5 x 2.2 capitate / subulate

Ascobolus preenob Spore 12.5-14.5 x 6.5  
from Paris crenolatus ✓ no clavus set  
check margin when older in II

19.6. Cap. leptomeris Cap. sericans ✓ V. funicola  
Laszlohus Asc: 17.5 x 2.9 Spore basate ellipsoid  
spores 21-22.5 x 11-11.5 setae < 380 broad  
coniculi ✓ at base

23.6

Cap. leptoneura

Cap. stercoraria

Mycosphaerella

neck 160 long  
-220

body ca  
65 diam

furrow ca 30 long.

Spores ca 45 long x 5  
no pedicels, 1 septate

Finastera

16-16.5 x 8

asymmetric gel

poor hyaline

not capitate

Ap. purplish brown,  
sl. darker rim.

asci

+ 11 diam.

Cervaria

Spores with clear inflected 'outer' wall

48-45-49

cf Petchii ?

27.6

Cap. sterc

Cap. leptoneura

Large immersed perithecia, trichia below. Immature  
600 diam. - few short style setae at base neck

very polysporous - broad spindle of immature spores

older spores - still immature

21 x 12.5-13

ly app hardly spathulate

12.5-16 x 3

thin simple tapered

21. - app. not very clear,

wetted in H<sub>2</sub>O as II

Setsa / by / conicoid

Arthrochrysis ? Globose heads. Spines

ellipsoid, 87. pyriform, aseptate 19-27 x 11-13

lot of venation present, with spines attached

(?) Small round head with radiating septate thick walled con. roots hairs  $\approx < 300$

5.7 Cap stercoars ✓

Lasiodius pale apithea frigid spine  
22.5 x 9 hairs 500

P. set etc

macrotichus ✓  
Setae very sparse

9.7 Cap stercoars ✓

Also schiz.

14.7 Cap sterco ✓

Dreaded - (a d pure insects  
(14.7))
