Rhizoids uncinates with nodal
 clusters of Sprongles on deadwood
 Ciliate pedicels? ca 50 long.

Shollen hp ca
 16 dan
 with 10-20 spores

Sporangioles 10-13-14 dan.

Helicostylum

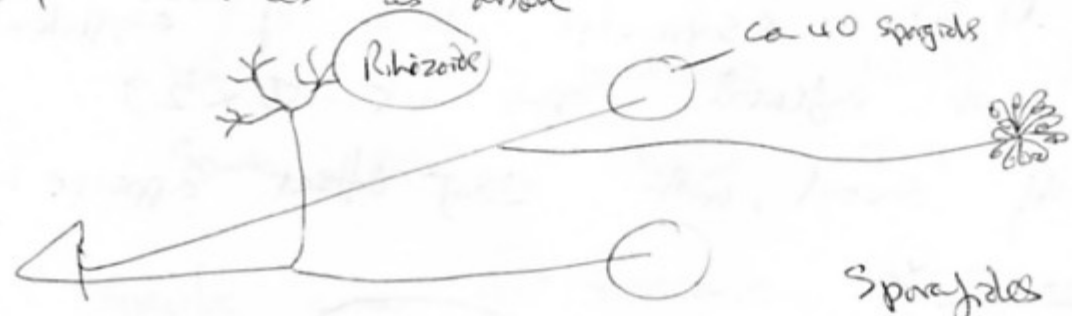

ellipsoid uncinat ca 6x4-5
 -7
 no apical
 Sporangium seen

Sp. - uncinat 4 ER

Sordaria

broad ellipsoid 18-19.5 x 13.5
 distinct gel funicula ✓

10.7 Rhizoids as above

1 head ca
 ✓ 120-150 dan
 overall

a complex terminal series of short snellings /
 dichotomies

13.7

17.7 Cop. stercoraria ✓

Sp. intermedia ✓

52-55 x 11-11.5

Sp. minima ✓

having 32-29 x 5

20.7 Sp. intermedia ✓ 48-51.5 x 11

Gymnascus ; make yellow Herat hyphae

check when make. Asci probosc ca 8 diam.

spores ellipsoid smooth hyaline

texture repeatedly dichotomously branched, rough, with unicate side branches / termini

Cap sterzners ✓ mycelial cords at base appear to be non-clamped

24.7 Cap. sterzners G. reesei ✓ clear yellow. Asci

probosc 8 diam. spores ellipsoid probosc 3 x 2

Capitatus ✓ small white Sp. 4. unicate peros,

still make but spore large absorbate

31.7 Cap sterzners G. reesei ✓ Sp. minima ✓

Asmin 4-sp asymmetric left of agglutinated

bars - not infected spores 45-50 x 23

symmetrically ovoid, with ~~off~~ offset appendage rather anzorese (x)

Asci clavate ca 290-320 x 38-32 ca 200 long x 8-10 at base

Capitatus -A white, small, asci ca 60.65 x 17-18

spores ellipsoid, obviously biseriate 9.5-10.5 x 6-6.5

peros unicate fibrous 1-2 diam

9.8 Cap. stercoraria ✓

Capitulum ~~stercoraria~~ asci ca 65 x 19, cylindrical abruptly stipitate, Paras five. Sti cap, minute bisseriate Sp. 9.5-10 x 6.5

9.8 Cap. stercoraria ✓

Zophella ~~stercoraria~~ ✓

Amium arizonicum ✓

Sp. funetoria (x) ✓ Smas 42-43 x 9.5-10
16 celled Sp. 40-41.5 x 3
apical appendage ca < 35 long x 5

14.8 Cap. stercoraria ✓ G. neesii ✓

Splenoid clavate 275 diam. hairs straight up to 700 long. ± black, pelvis to apex
Asci Spherical - clavate 14-15 diam.
Spores globose - ellipsoid 3-4 ?

15.8 specific search for thezia:-

check Zophella stone

(x) (1) black hairy, as above + on 39+44

No Zophella seen - delete record of 9.8

21.8 Cap. stercoraria ✓ G. neesii ✓

Sprayed for larvae

Thezia A ✓

Thezia B ✓ hairs to 240 asci 14-15 diam

26.6

Theorem A'

Theorem B'
