

Dall's sheep Savage Creek Hill, Denali NP, Alaska, USA 52/04
W149.30 N63.70. 16.6.04. Coll. Brynne Bryan. [incubated 19.9.04]

20.9 Lasiosphaera sp. basinate ellipsoid

Setae < 250 ascus 24 diam

Sp 17.5-19.5 x 10-11-12.5
-20

excipulum ~~not~~ particularly elongated in
horizontal or vertical direction - leading to
horizontal.

Lasiosphaera

23.9 - 28.9 Limonia Sordaria

4.10 pure white Asciobolus, spores fairly disc-like
16 x 9 uniseriate basellate

hymenium 200 deep, asci 23 wide.

no colour at all in apothecium

Saccobolus

Sordaria sp discharged 20-
21-22.5 x 14-14.5
12.5

good sp.

Limonia

Lasiosphaera ✓ pinkish orange apothecium. small ca 200
diam.

Setae < 300 Ascus 20-23 wide. Spores

many uniseriate. sp 19-19.5 x 11-11.5.

Lasiosphaera ✓

12.10 Asciobolus ✓ sp 16 x 8  exospore cracks ✓ faint

Saccobolus 3+3+2 s.m 40-42 x 15-16

sp. v. st. rough 16 x 8

Lasiosphaera

S. fimicola ✓

27.10 Sacc. versicolor ✓ S. fimicola ✓

Ascothrus ✓ 0.6 mm diam. white, central point of
attachment. Parenchyma / phloem excidium.

Not fungous  sp 16.5-17.5 x 8-9

Discarded 27.10 mostly.
